## State of Affairs: College Loan Debt

Starting is Believing

- Student loan debt is a significant issue, with loan debt at \$1.5 trillion and the average Florida student graduating from college with \$24,000 in loans.
- Since 1985 the cost of college has increased 538%– more than medical costs (286%) and gasoline (200%).
- The average salary for a Florida graduate holding a bachelor’s degree from a Florida College is \$52,768, compared to just \$23,920 for someone with a high school diploma, according to the Florida College System
- According to the U.S. Department of Education, college graduates on average earn \$1 million more over their lifetimes than high school graduates

## Journey for the 2019 Plan Enhancements

Over the past 18 months, the Board worked with experienced **investment and 529 consultants** to refine the investment options, add **new investment managers**, and bring this vision to reality.

- Asset allocation
- Manager selection
- Best practices

### Investment Managers

- Name brand
- Positive future outlook
- Historical performance

**The enhancements were launched September 2019!**

## Age-Based Option

Age-based Options are professionally developed portfolios that automatically reallocate to less risky assets as the participant ages.

Participants experience market timing risk when transitioning from one age grouping to the next.

**Market timing risk was reduced** by increasing the number of age groupings from 5 to 16.

15

Starting is Believing

15

## Age-Based Option Allocation

Asset class allocation is the primary driver of long-term success for age-based options.

**Allocations were refined** to include equity and fixed income at all ages.

**Asset classes** were added to provide diversification.

**High quality** funds were added (Vanguard, Dimensional Fund Advisors, Eaton Vance).

16

Starting is Believing

\* New diversifying asset classes  
See Appendix for allocation details.

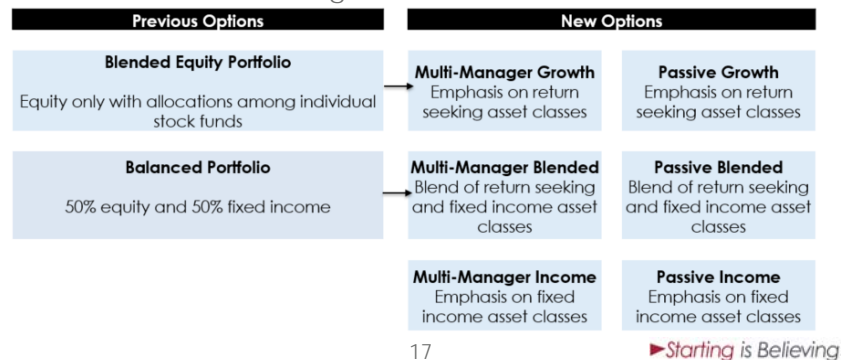

16

## Static Options

Static Options are professionally developed portfolios that do not change based on the age of the participant.

Static Options were expanded from 2 to 6 and accommodate various investment strategies:

17

## Static Option Allocations

Asset class allocations were broadened to incorporate greater:

- Name brand recognition
- Diversification

\* New diversifying asset classes  
See Appendix for allocation details.

## Investment Fund Enhancements

High quality funds were added to each portfolio:

- Name brand recognition
- Forward-looking outlook
- Historical performance

53% of assets are in the new funds, with remainder invested in:

- Individual fund options
- Active management

## Individual Asset Class Options

Individual asset class options were refined for do-it-yourself investors.

The core U.S. equity option was transitioned to Vanguard to provide:

- Better value
- More name recognition
- Expanded benchmark

The small and mid cap equity options were merged to provide:

- Blended investment styles
- Additional diversification
- Broader benchmark

## Myths, Busted!

Starting is Believing

**Myth:** If I get a scholarship, I lose my plan savings.

- ✓ **Truth:** Prepaid Plans work great alongside scholarships, and you can use them together to cover even more college expenses. For example, the value of Prepaid Plan benefits can also be applied to graduate or professional schools nationwide. If your student receives a scholarship, you also have the option to get a refund for the same amount as the plan would pay a public college or university in Florida based on your plan type.

**Myth:** If a child moves out of Florida before using it, the value of the plan is lost.

- ✓ **Truth:** If a child is a Prepaid Plan Beneficiary and moves out of Florida, the child remains eligible for in-state tuition and fees at a Florida College or State University. The value of plans - what we would pay a Florida school - can also be applied to public, private, in-state and out-of-state institutions nationwide.

**Myth:** I can only use my prepaid plan in Florida.

- ✓ **Truth:** While Florida Prepaid Plans are designed to be used at a Florida College or State University, the plans can also be applied at other schools nationwide. Plans can be used at in-state, out-of-state, public or private schools around the country - or even the world. With your Florida Prepaid Plan, the value we pay to other schools is the same as we would have paid to a Florida school.
